

WARE NEIGHBOURHOOD PLAN

Development of Ware's Neighbourhood Plan enters an exciting new phase

- **The latest version of our Draft Plan is now available to read in full**
- **We've also published bite-sized extracts**
- **We're entering a feedback phase, with a view to formal consultation in early 2022**
- **We're setting out our stall at public events - our most recent was at the Eco aWare Community Day on Saturday 13 November at the Priory**

November 2021: Look out for news and updates on our [Events](#) page. And check out our new [Draft Plan](#) hub too! We'd love to hear what you think about the latest versions of our policies. And of course your input will be hugely important in preparing a final version of our Draft Plan - we expect to have it ready in early 2022 to enter a couple of formal consultation phases.

We'd absolutely love to hear what you think about progress so far... and whether you're happy with our policies. Can they be improved? Are we missing something? Is the emphasis right?

Come along and chat to us when we set out our stall.

Alternatively, [drop us a line](#) or take part in the debate on social media...
