

WARE NEIGHBOURHOOD PLAN

Zoom meeting, 20 April 2021...

- **Our consultants Alison Eardley and Chris Bowden have now created a skeleton draft of our Plan**
- **We're still on schedule to conduct a second public consultation in the late summer of this year.**
- **We've published a Progress Report**

A hugely encouraging meeting for all concerned – so this is a good point to catch up on the work we've done so far and to outline our continuing aspirations for the Plan.

Our Progress Report is available in full [here](#).

It includes an over-arching Vision for Ware, derived from the views you have expressed in our public consultations:

“Ware should be kept as an identifiable attractive town, which enjoys the peace associated with being part of the countryside, while still contributing to the wider geographical community. The character of Ware must be maintained in order that it remains an attractive place in which to live, work and visit...”

And the Plan's six key objectives are outlined too.

We are currently seeking advice regarding how we can best undertake our public consultation this summer, to ensure that we comply with the public health requirements likely to be in place at that time. Minutes from the meeting are available [here](#).
